Subject: Hi, Larry

Here is my support letter:

To Whom It May Concern,

I lived in Saratoga 1960 - 1970 when my children were early school age and, because I grew up "in the country, east San Diego County, I always enjoyed taking them on "adventures" in the many nearby (and at that time, accessible) creeks in the area.

I remember hearing about the old RR Trestle in Willow Glen so we drove over to see it and then walk across it. What a thrill!

Therefore, the Trestle has been on my historic SAVE list ever since!

I gradually became even more involved with Valley History as a founding member of Preservation Action Council. We were proud to have saved the Jose Theater, the Montgomery Hotel and the Scheller House on the San Jose State University campus - and in most cases against strong opposition. I also belong to Pioneers, History San Jose and many of the local (city) groups. I was President of the Morgan Hill Historical Society when the Acton House was moved to city property to become the Museum. In addition, I taught Historic Preservation in the Urban Planning Department at San Jose State University for 19 years. All of the students were required to participate in a local "historic" project.

**Therefore, I strongly support the San Jose Parks Foundation Willow Glen Trestle application for grant funding.**

Very sincerely yours,  
Beth Wyman
